

**ART GORDON, FORMER FLEOA NATIONAL PRESIDENT  
FORMS  
"STRATEGIC PARTNERSHIP FOR PUBLIC SAFETY"**

**FOR IMMEDIATE RELEASE**

**APRIL 30, 2013**

As a result of the terrible tragedy in Newtown, Connecticut in December 2012, Secure Our Schools LLC was established to utilize the skills and expertise of current and former law enforcement officers to keep our children safe while attending school. The website for this company is: [www.secureourschools.net](http://www.secureourschools.net).

As a result of the tragedy that occurred in Boston a few weeks ago, Tripwire Operations Group, a leading provider of explosive products and explosives training for law enforcement and first responders has beefed up its operations to keep the public safe while attending sporting and entertainment events. The website for this company is: [www.tripwireops.org](http://www.tripwireops.org).

Today I am happy to announce that I have assumed a leadership position within both companies and we are forming a "STRATEGIC PARTNERSHIP FOR PUBLIC SAFETY" between the two companies, to use all of our combined resources to keep everyone safe from harm in this great country of ours.

**Both companies are unique in that they utilize highly trained former law enforcement officers, first responders and certified bomb technicians for staffing on a national level.**

**If you are aware of schools in your area that are in need of security assessments, training of personnel or hardening of their facility, please contact [art@secureourschools.net](mailto:art@secureourschools.net).**

**If you are aware of sports venues (high schools, colleges or professional teams) or entertainment events (concerts, marathons, large charitable gatherings) that are in need of security assessments, training for security personnel on IEDs (Improvised Explosive Devices), explosive detection canine teams, on-site certified bomb technicians or security experts, please contact [art@tripwireops.org](mailto:art@tripwireops.org).**

**Your support for both companies demonstrates your faith in the men and women who are highly trained, highly skilled and have significant expertise in keeping us safe from those who wish to do us harm. "These are the men and women who continue to protect and serve".**
